Introduction

Internship is not mandatory as per the University of Calicut regulations 2016 currently in place. However at LEAD, this is mandatory for all students and for those pursuing entrepreneurship, this time is used for them to be mentored for the business plan development.

The period of internship was scheduled for 6 weeks for August 2023 as the academic year calendar / exams decided by the University is running late by 4 months and there was a sudden advancement of the second semester exam dates by a month with little notice.

The internship was thus reduced to a 3-4 week period and on account of the exams which ran over a month, there is a delay in closing the internship report for 2023 and is expected to be completed by October end .

The internship data included is corrected and authenticated by the placement team.
