LEAD COLLEGE OF MANAGEMENT

THE MURAL AT THE ENTRANCE DEPECTING MARVEL COMICS HEROES

Painting is concerned with all the 10 attributes of sight; which are: Darkness, Light, Solidity and Colour, Form and Position, Distance and Propinquity, Motion and Rest.

*Leonardo da Vinci .*

At Lead College of Management we celebrate art.

we celebrate music. We celebrate life.

We learn from art.

We learn from music.

We learn from life!

After all, we are **not** just another MBA school !

Here is a preview of campus art at Lead.

ART  
MEETS  
NATURE

Heard of a 24/7/365 campus ? We are that . Fully residential. 650+ stakeholders. Right near Dhoni forests, even elephants visit us occasionally ! Truly nature at its best! We have a farm,camel, emus, ducks, geese, parrots, horse, koi, turkey, even a rock python and a few colour-changing chameleons. And yes, we are sure to have some two-legged assess and monkeys too. All presided by our Labrador and our newest family member, the furry cat.

LEAD COLLEGE OF MANAGEMENT

## ART MEETS FOOD

Everyday 700+ each of breakfast, lunch and dinner is served. Plates are washed. 1500 finger-food served. We decided the menu. We do not waste. All scraps are sent to the farm for composting and for feeding the farm animals. And over 30 liters each of black coffee, white coffee, black tea, white tea and milk is consumed every day. The person behind bars is the kitchen boss ! No that is not his message. It is the mess committee's!

"... food is not simply organic fuel to keep body and soul together, it is a perishable art that must be savoured at the peak of perfection." — E.A. Bucchianeri, Brushstrokes of a Gadfly,
